

## Mad Dogs & Englishmen Dog Walking, Doggy Daycare

---

Mad Dogs & Englishmen was established in 2006 by James Webb & wife Catherine. Originally just based in Sydney's lower North Shore, we are now walking dogs every day all over Sydney from Coogee to Manly & Eastern Suburbs to the Inner West. We also have great franchises walking dogs in Canberra, Brisbane, Gold Coast, Central Coast of NSW, Wollongong & the Sutherland Shire.

### Doggy Day care

If you need your dog occupied for longer than two hours, why not send them out for half a day of fun and socialisation with our professional staff

No need to drop off at a daycare centre or pick up after work as we will do all the driving for you – Just book in and let us do the rest!

Rather than send your pooch to a daycare and keep your dogs inside in a confined space, we will take your dogs to local parks and beaches for the morning or afternoon, where would your dog rather be, at the beach off the leash for the day or in a daycare centre? They can run freely, swim, play, chase a ball, PLUS there are no annoying drop offs or pick ups after work.

# Opera House – Seagull Patrol

We have trained dogs that will help the seagulls to decide to go elsewhere for their food, leaving your customers to peacefully enjoy their food without the constant aerial attacks! Our Dogs are trained specifically to chase seagulls and are super social with people

After decades of seagulls stealing people's food at the iconic Sydney Opera House, and trying numerous ways of scaring them away including mechanical hawks, food covers, nothing worked... until Mad Dogs & Englishmen arrived with Muffin and Tauzer. While the dogs are present there are zero seagull attacks on food. We have trained dogs and handlers that understand the behaviour of the seagulls and know exactly what to do to keep them away.

## Dog Walking

Our dogs always get to spend one hour at the park in groups of four dogs. The whole experience of collecting your dog and his friends, driving to the park and being delivered safely home, usually lasts about two hours, so it's a great way to split up a long boring day at home alone. For longer outings see our "Doggy Daycare" page.

We have a commitment to offering a quality, professional, reliable and organised service, that has given us a great reputation across Australia. As we operate a franchise System, there are no random people turning up to walk your best friend, you will get to know your local Mad Dogs Franchisee on no time with regular feedback and pictures via Instagram!

Established in 2006, by James Webb & his wife Catherine in Sydney, the business has grown steadily with franchises in NSW, ACT & Queensland.
