

Aces Aspire was conceived from a shared vision between its founders Veron and Alvin: that everyone should have access to quality education. We firmly believe that students should be able to seek academic guidance with ease and in comfort - our lessons are student-centred and we maintain a healthy cap (Max 8) on our class

The tutors are all specialist in their respective areas. We have experience in tutoring students across multiple streams at IB HL Math, "A" Levels GP, H2 Math and "O" Levels A Math. Read about them and their achievements [here](#) and [here!](#).

In 2018 we started off at Woodlands (4 minutes from walk Marsiling MRT) and started a second outlet (AcesMath) at Bukit Timah Shopping Centre (5 mins from Beauty World MRT) in 2019!

Our values

Here at Aces Aspire, all of our teachers uphold these core values. Our well-planned curriculum is catered to the holistic development of our students. Apart from guiding them towards achieving their fullest potential, we believe in imbuing our students with a self-driven mindset and stimulating their intellectual curiosity.

ASPIRE - we are driven to foster our students to be lifelong seekers, creators of value to themselves and more importantly, their community.

COMMITTED - we are committed to performance, guiding our students in every step of their journey towards realising their targets.

PERSONAL - the value we place on our student-teacher relationships is reflected in our desire to make every lesson a personalised one.

UNITED - The Aces team is united with the common goal and purpose in providing our students with quality education and mentoring.

AcesAspire/AcesMath is a tuition centre in Bukit Timah specializing in Mathematics for students taking GCE "A" (H1,H2 Math), GCE "O"(A Math, E Math) levels, IGCSE (A Math, E Math), and IB (HL, SL) examinations.

We also have an outlet in Woodlands (near Marsiling MRT).

Aces is helmed by three NIE trained Math teachers who each have more than 10,000 hours of teaching experience and have a track record of helping students achieve their goals in examinations.

The small class size (max 8) based on the school of each student means that the kids get to learn more effectively and with the most dedication from each teacher during their sessions.

Aces provides bespoke notes that are designed for students to grasp concepts easily and used as cheat sheets for last minute revision.
